LandWeb v1.0.0

Eliot McIntire and Alex M. Chubaty

April 13, 2018

Overview

Lorem ipsum. . .

Model outputs

Model outputs are available to download for authorived app users. The downloaded file (*e.g.*, `LandWeb_v1.0.0_2018-04-13.zip`) can be unzipped and contains the following directory and file structure:

```
LandWeb_v1.0.0_2018-04-13/
 |_ cache/
     |_ <subStudyRegionName>_Proprietary/
         |_ rasters/
 |_ outputs/
     |_ <subStudyRegionName>_Proprietary/
         |_ <rctChosenPolyName>/
             |_ histograms/
                 |_ largePatches/
                 |_ vegAgeMod/
         |_ Polygons/
         |_ experiment.RData
         |_ initialCommunitiesMap.tif
         |_ largePatches.csv
         |_ rstFlammable*.grd
         |_ rstFlammable*.gri
         |_ rstTimeSinceFire_*.tif
         |_ simulationOutput_*.rds
         |_ vegArea.csv
         |_ vegTypeMap_*.grd
         |_ vegTypeMap_*.gri
         |_ vegTypeMap_*.tif
         |_ vegTypeMap_*.tif.aux.xml
 |_ README.Rmd
```

"Inputs"

- Currently selected reporting polygon (.shp)
- Cached raster input files (.tif)
- Inital communities map (.tif)

Large Patches Data for study region

- Large Patches Data (.csv)
- Large patches histograms (.png)

Leading Vegetation Cover Data for study region

- Leading Vegetation Cover Data (.csv)
- Leading Vegetaiton Cover histograms (.png)

Simulation Rasters (cropped to study reagion)

- Flammability maps (.grd)
- Time Since Fire maps (.tif)
- Vegetation type maps (.grd, .tif)

Additional R Data Files

- Simulation data files (.RData, .rds)
